Summary:

Motivated software engineer student with a strong foundation in programming. Eager to contribute technical and problem-solving skills while facing challenges through internships or entry-level roles. An avid learner that aims for continuous growth in the professional field.

Skills:

JavaScript, HTML, CSS, Python, Java, GitHub, Git, AWS cloud, Data analysis, SQL, Data Structures and Algorithms, UI/ UX Design, Web development, Word, Excel.

Experience:

- **Reminder web application**
Used JavaScript, HTML, & CSS to implement some of the following features:
 - Designed the application with a user-friendly interface and a clean layout.
 - Implemented a system that triggers notifications based on reminders set by the user.
 - Developed functionality for users to add and delete tasks easily.
- **Portfolio Website**
Used JavaScript, HTML, & CSS to implement some of the following features:
 - Built a responsive portfolio website to display projects, experience, and contact information.
 - Enhanced the contact page with EmailJS by adding a contact form for direct communication.
- **Book Website**
Collaborated with a group to create a website using JavaScript, HTML, and CSS to implement some of the following features:
 - Integrated a weekly countdown timer to highlight recommended books.
 - Built a user-friendly navigation bar to improve site structure and usability.
 - Created a visually themed page to showcase books from a particular genre.

Education:

Western Governors University.
Bachelor of Science in Software Engineering.
Expected Graduation: August 2026.

Year Up /Seattle Central College.
Certificate in Application Development.
Sept. 2023 – Aug. 2024.

Year Up is an intensive, competitive technical training and career development program. The program includes college-level courses and professional training.
