Summary:

Motivated software engineer student with a strong foundation in programming. Eager to contribute technical and problem-solving skills while facing challenges. An avid learner that aims for continuous growth in the field.

Skills:

JavaScript, HTML, CSS, Python, Java, GitHub, Git, AWS cloud, Data analysis, MySQL, Data Structures and Algorithms, and Web development.

Experience:

- **Reminder web application**
Used JavaScript, HTML, & CSS to implement some of the following features:
 - Developed functionality for users to add and delete tasks easily.
 - Implemented a system that triggers notifications based on reminders set by the user.
- **Book Website**
Collaborated with a group to create a website using JavaScript, HTML, and CSS to implement some of the following features:
 - Built a user-friendly navigation bar to improve site structure and usability.
 - Created a visually themed page to showcase books from a particular genre.
- **Inventory System**
Used Java and Spring framework.
 - Implemented the ability to create, update, and delete parts and products.
 - Integrated forms to take user input and error handling.

Education:

Western Governors University.
Bachelor of Science in Software Engineering.
Expected Graduation: August 2026.

Year Up /Seattle Central College.
Certificate in Application Development.
Sept. 2023 – Aug. 2024.

Year Up is an intensive, competitive technical training and career development program. The program includes college-level courses and professional training.
